

VECO MULTI FAMILY OFFICE SA

VECO GROUP
Switzerland

VECO Group - Profile

- Veco Group is an independent Swiss-headquartered trust, corporate, tax consultancy, asset management, family office and international trade services group.
- With a 40-years heritage, Veco Group provides a comprehensive and global management of tax-efficient companies, trust and foundation administration, specialist tax consultancy, asset management and international trade through our integrated network of offices in 10 jurisdictions.
- Veco Group assists and guides the client through the complexities of corporate, fiscal, administrative, trade and financial problems that might arise in executing a business project.
- We offer a vast range of personalized consulting services bearing the hallmark of discretion and international expertise.

Fiscal

- Planning your moves enables you to reap maximum benefit from situations by anticipating possible variables and choosing the best course for attaining your goal at the lowest cost. Fiscal planning is fundamental to effective international business activity.
- Our intervention at this stage is customized, both for companies having simple commercial dealings with other countries as well as to those deploying structures and assets abroad.
- Experience, dynamism and knowledge are the ingredients of service with a wide spectrum: our consultants are ready to analyze your situation and projects so as to devise personalized strategies for even further enhancing the profitability of your capabilities.

Corporate and Trust

- Veco Group's network of branches, partners and correspondents affords such a wide geographical spread that it is able to offer entrepreneurs an extensive range of corporate and trust services worldwide.
- Clients derive added advantages from being able to operate within their own time zone, in their own language and their own culture through professionals attentive to their specificities and acting as their interface with the world.
- The businessman's advantage is to be able to concentrate his own capabilities on project development whilst entrusting non-strategic company and trust services to specialized consultants.

Family Office

- Family office services are aimed to provide an independent consulting and integrated supervision in connection with the diversification and optimization of investments and risk management.
- The services address those faced with the complexities of a generational transition in their business, people who need investment strategies capable of guaranteeing the continuity and profitability of their personal wealth, or those who simply require constant monitoring of the financial situation that would otherwise be difficult to organize and advise on the various investment options.
